FUEL CONSUMPTION

Fuel consumption and CO₂ figures are determined on the basis of the new WLTP test procedure as per Regulation (EU) 2017/1347. Figures shown are for comparability purposes; only compare fuel consumption and CO₂ figures with other cars tested to the same technical procedures. These figures may not reflect real life driving results, which will depend upon a number of factors including the accessories fitted (post-registration), variations in weather, driving styles and vehicle load.
### TECHNICAL SPECIFICATION*

**FIAT 500 MY2021 EU6D**

<table>
<thead>
<tr>
<th>Engine Capacity cc</th>

Due to the complexity of the Fiat 500, some options may be linked to or be incompatible with other options. In view of constant product development, some options may also be linked to options made available after the publication of this pricelist. Please refer to your local Fiat dealer for detailed information about the incompatible links between options.

1. Requires option 7J0.
2. The leather gear knob will always be the colour of the steering wheel.
3. Requires option 347.
4. Available only with Dialogic.
5. Incompatible with opt 410.
6. Requires option 318.
7. Incompatible with opt 803.
8. Incompatible with opt 4YG.

Fiat Range Price List – April 2020
Further Information

The Government have made the following changes to VED:

- Cars registered after April 1st 2018 will pay a one-off tax charge for the first year (included in OTR price), with rates decided by the CO2 emissions of the vehicle.
- From the second year onwards, the CO2 scale becomes irrelevant, as two flat rates will then be applied – a £0 (zero) VED rate for electric zero-emissions vehicles only, and a flat annual rate of £145 for petrol and diesel cars and £135 for alternative fuel cars.
- While cars costing over £40,000 will also be liable for the £145 VED rate from year two, they also pay an additional annual ‘supplement’ of £320 for the first five years.

### Table 1: VED Rates for Cars
