The Fiat Topolino is classified as a quadricycle and will be seen in the UK as a left hand drive. As the Topolino has range and speed limitations as outlined in the specification please ensure that this is suitable for your needs and operating purposes. Due to the speed limitation, the Topolino is not legally permitted on UK motorways, and further consideration should be given where the speed limit of the road exceeds the speed limitation of the Topolino. Whilst the Topolino is manufactured with a European two pin plug, charging in the UK is completed via a Type 2 wall box converter, which is supplied with your Topolino. Charging via a wall box does not decrease the charging time, as the Topolino itself limits the charging speed as opposed to the charging solution.

Topolino is only available to purchase through selected retailers.

Electric range 199 miles (Combined). These figures were obtained after the battery had been fully charged. The Grande Panda is a battery electric vehicle requiring mains electricity for charging. Figures shown are for comparability purposes. Only compare fuel consumption, CO2 and electric range figures with other cars tested to the same technical procedures. These figures may not reflect real life driving results, which will depend upon a number of factors including the starting charge of the battery, accessories fitted (post-registration), variations in weather, driving styles and vehicle load.

TECHNICAL SPECIFICATION
ALL-ELECTRIC 500 (RED) MY25

	Maximum Power HP (kW)	Acceleration 0-62 mph - sec	Top Speed mph	Electric Range WLTP Combined Miles (km) g/km	Charge Power kW	Charging Times		
						2.3 kW AC 0-100%	11 kW AC 0-100%	85 kW DC 0-80%
24 kWh (City Range)	95 (70)	9.5	84	118 (190)	up to 50	8h45'	2h30'	30'
42 kWh (Long Range)	118 (87)	9	93	186 - 199 (299 - 320)	up to 85	15h15'	4h15'	35'

Electric range 118 to 199 miles (Combined). These figures were obtained after the battery had been fully charged. The Fiat 500e is a battery electric vehicle requiring mains electricity for charging. Figures shown are for comparability purposes. Only compare fuel consumption, CO2 and electric range figures with other cars tested to the same technical procedures. These figures may not reflect real life driving results, which will depend upon a number of factors including the starting charge of the battery, accessories fitted (post-registration), variations in weather, driving styles and vehicle load.

FURTHER INFORMATION

On The Road charges (OTR) include:

- 12 Months Government Vehicle Excise duty depending on CO2 emissions, vehicle first registration fee (£55), number plate (£26) and delivery costs (£800).

The Government have made the following changes to VED:

- Cars registered on or after April 1st 2026 will pay a one-off tax charge for the first year (included in OTR price), with rates decided by the CO_2 emissions of the vehicle. Vehicles priced over £40,000 will also be subject to the "Expensive Vehicle Supplement.
- From the second year onwards, the CO_2 scale becomes irrelevant, a flat annual rate will then be applied of £195 for all cars.

VED Rates for 2026/2027 for cars registered after April 1st 2026:

CO_2 Emissions Figure (g/km)	0	1-50	51-75	76-90	91-100	101-110	111-130	131-150	151-170	171-190	191-225	226-255	Over 255
Petrol / Alternative Fuel / Zero Emission cars	£10	£115	£135	£280	£365	£405	£455	£560	£1,410	£2,270	£3,420	£4,850	£5,690

FUEL CONSUMPTION

Fuel consumption and CO_2 figures are determined on the basis of the new WLTP test procedure as per Regulation (EU) 2017/1347. Figures shown are for comparability purposes; only compare fuel consumption and CO_2 figures with other cars tested to the same technical procedures. These figures may not reflect real life driving results, which will depend upon a number of factors including the accessories fitted (post-registration), variations in weather, driving styles and vehicle load.
