TECHNICAL SPECIFICATION GRANDE PANDA ELECTRIC

	Maximum Power HP (kW)	Acceleration 0-62 mph (sec)	Top Speed (mph)	Electric Range WLTP Combined (miles)	Charge Power (kW)	Charging Times		
						7 kW AC 20-80%	11 kW AC 20-80%	100 kW DC 20-80%
Grande Panda Electric	113 (83)	11-11.5	82	199	100	04:20	02:50	00:27

Electric range 199 miles (Combined). These figures were obtained after the battery had been fully charged. The Grande Panda is a battery electric vehicle requiring mains electricity for charging. Figures shown are for comparability purposes. Only compare fuel consumption, CO2 and electric range figures with other cars tested to the same technical procedures. These figures may not reflect real life driving results, which will depend upon a number of factors including the starting charge of the battery, accessories fitted (post-registration), variations in weather, driving styles and vehicle load.

FURTHER INFORMATION

On The Road charges (OTR) include:

- 12 Months Government Vehicle Excise duty depending on CO2 emissions, vehicle first registration fee (£55), number plate (£26) and delivery costs (£800).

The Government have made the following changes to VED:

- Cars registered on or after April 1st 2025 will pay a one-off tax charge for the first year (included in OTR price), with rates decided by the CO2 emissions of the vehicle. Vehicles priced over £40,000 will also be subject to the "Expensive Vehicle Supplement."
- From the second year onwards, the CO2 scale becomes irrelevant, a flat annual rate will then be applied of £195 for all cars.

CO ₂ Emissions Figure (g/km)	0	1-50	51-75	76-90	91-100	101-110	111-130	131-150	151-170	171-190	191-225	226-255	Over 255
Petrol / Diesel / Alternative Fuel / Zero Emission cars	£10	£110	£130	£270	£350	£390	£440	£540	£1,360	£2,190	£3,300	£4,680	£5,490

FUEL CONSUMPTION

Fuel consumption and CO₂ figures are determined on the basis of the new WLTP test procedure as per Regulation (EU) 2017/1347. Figures shown are for comparability purposes; only compare fuel consumption and CO₂ figures with other cars tested to the same technical procedures. These figures may not reflect real life driving results, which will depend upon a number of factors including the accessories fitted (post-registration), variations in weather, driving styles and vehicle load.
